## Resume

I am a senior student at Necmettin Erbakan University, Department of Mathematics and Computer Science. I have experience in various programming languages, including Python, C, JavaScript, and Rust. I have developed projects in data science, web development, cybersecurity, and game development. Through various technical events and competitions, I have strengthened my problem-solving and application development skills. I am focused on creating innovative solutions and continuously improving myself.

## Education

- Necmettin Erbakan University, Faculty of Science, Department of Mathematics and Computer Science, 4th year (2021-Present)
- Adana Middle East Collage (2018-2019)
- Hasan Adalı Anatolian High School (2015-2018)

## Certificates

[Istanbul Data Science Academy - Google Cloud Data Analyst Bootcamp](#)

[AI BUSINESS SCHOOL/Global AI Hub - Aygaz Makine Öğrenmesi Bootcamp](#)

[AI BUSINESS SCHOOL/Global AI Hub - Introduction to Machine Learning](#)

## TECHNICAL SKILLS

### Programming Languages:

Python, C, C#, Javascript, Rust, GO

### Tools and Technologies:

Google Cloud Platform, FastAPI, Django, Nextjs, Sqlite, PostgreSQL, Git, GitHub, Linux, Shell Scripting, Unity

### Abilities:

Data Analysis, Machine Learning, Data Visualization, SQL, Cybersecurity, API Development & Integration  
Game Development

## PROJECTS

### GitHub Portfolio:
